

# Spandex Model

Cut out the spandex model strips. Glue them together by lining up the right edge of a strip to the dotted line on the left edge of a strip.

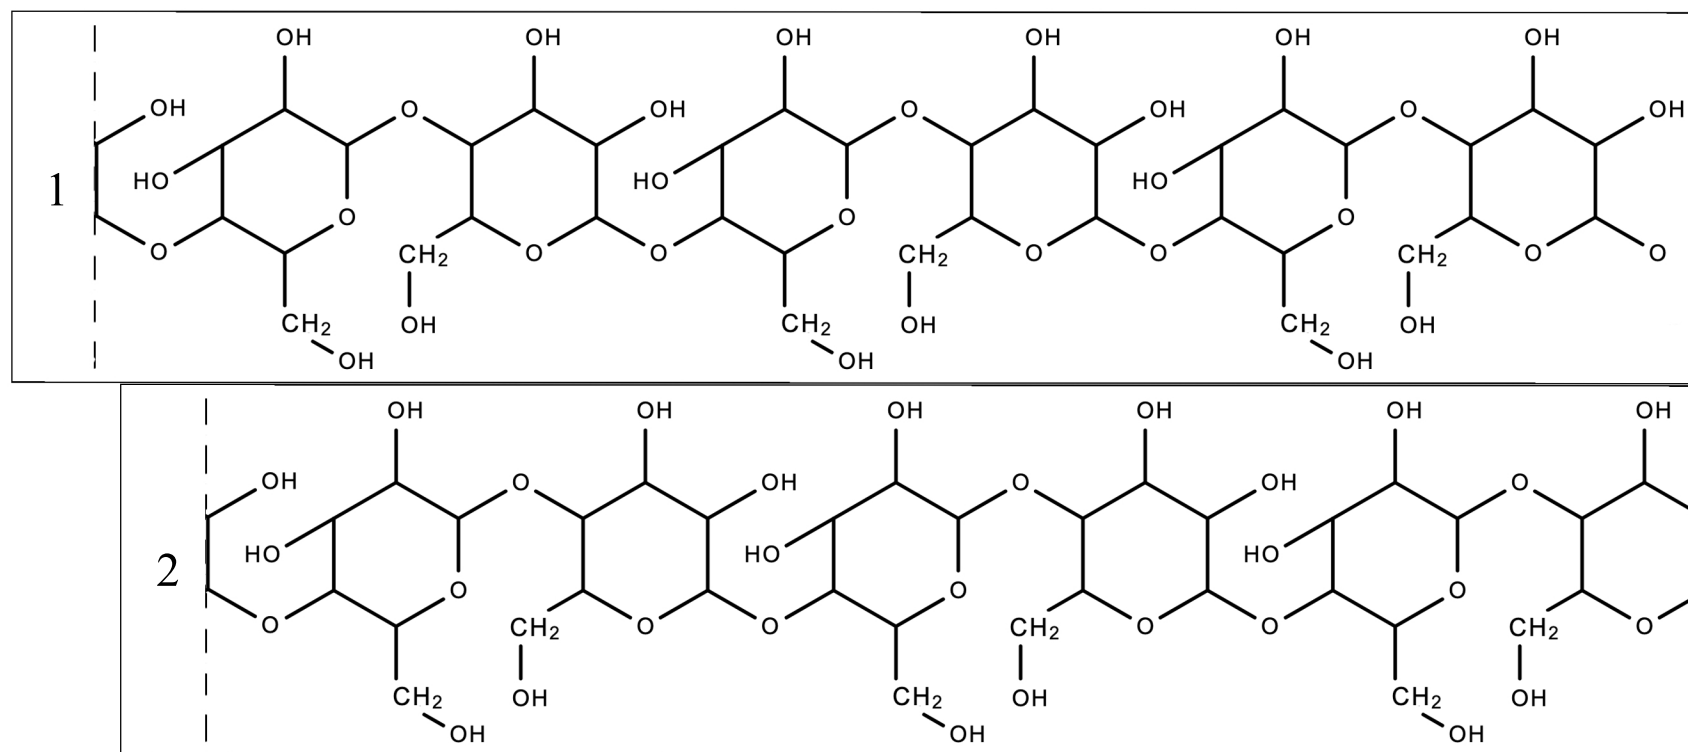

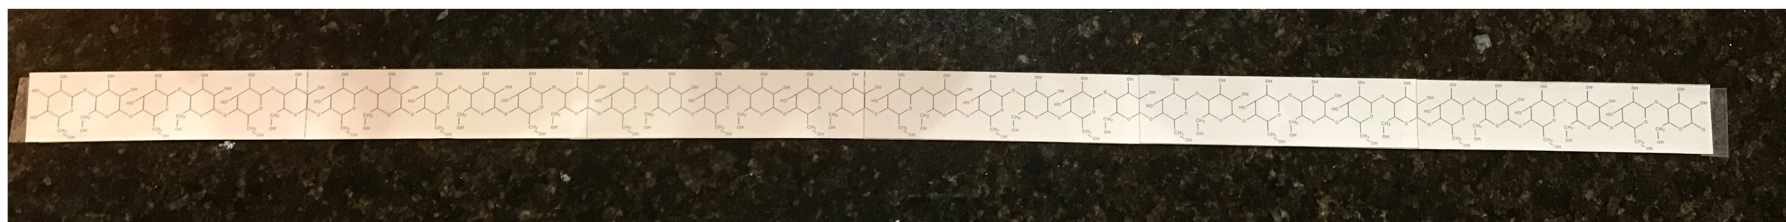

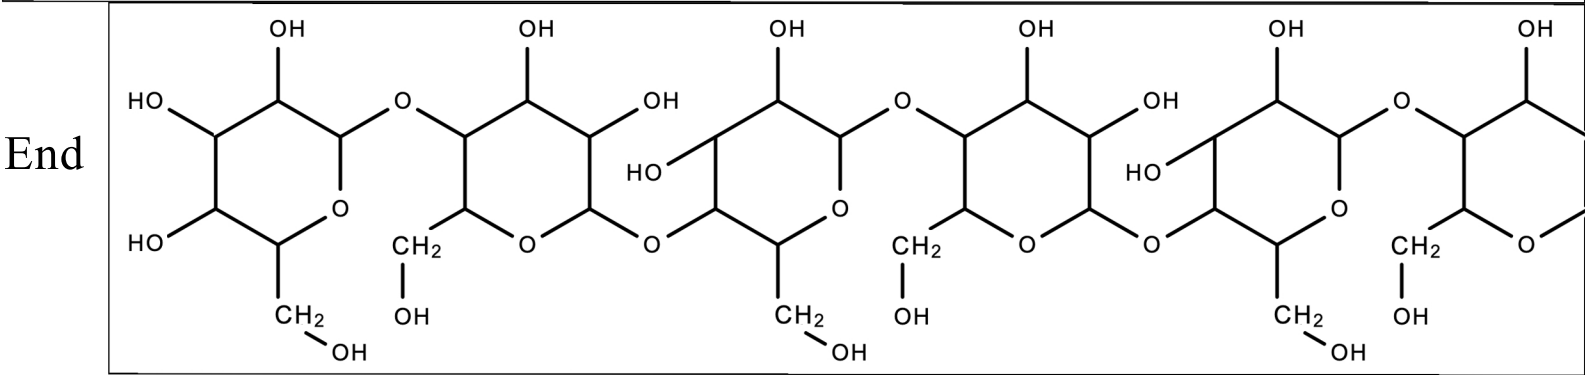

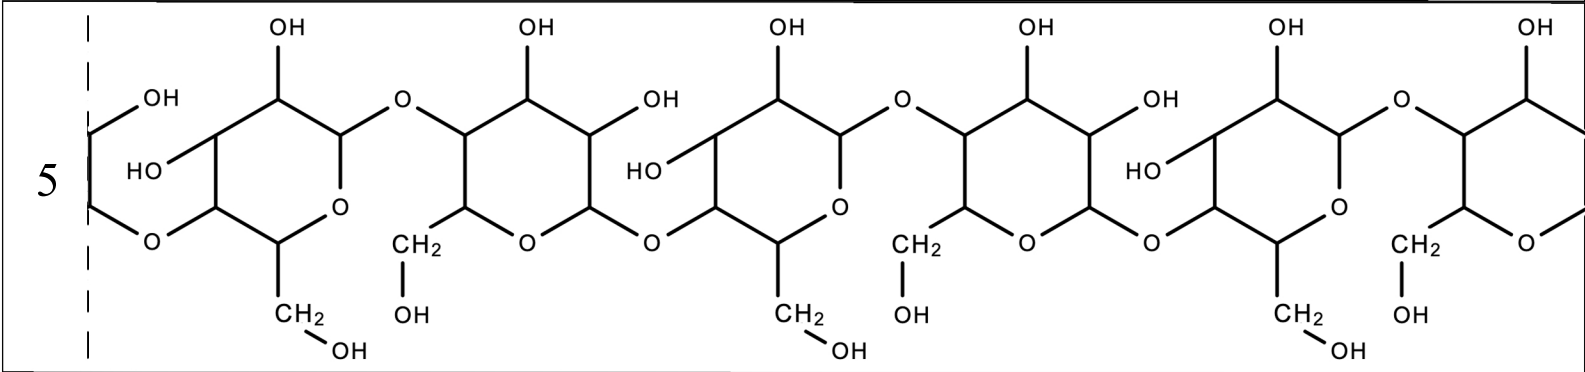

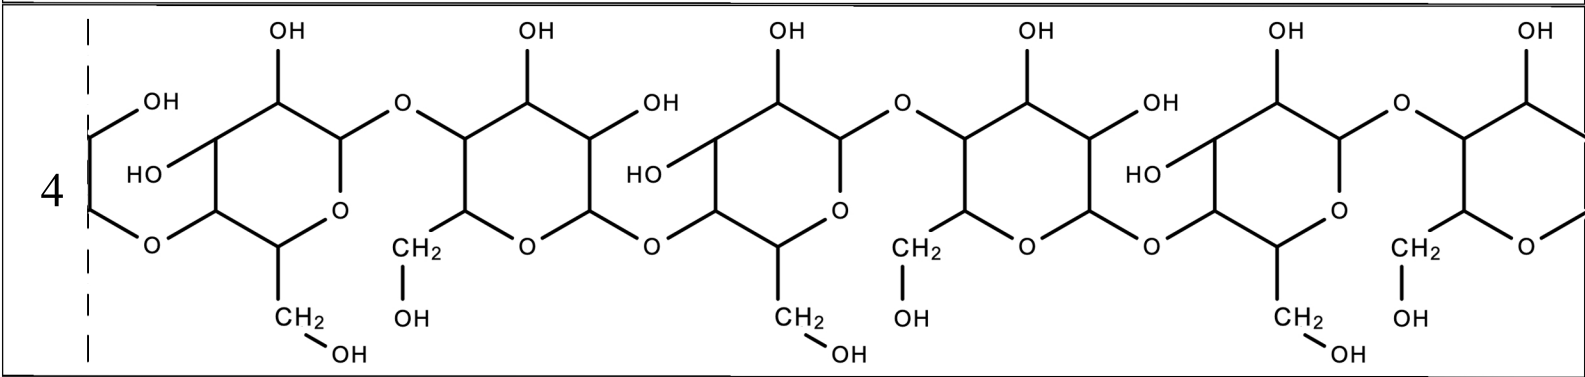

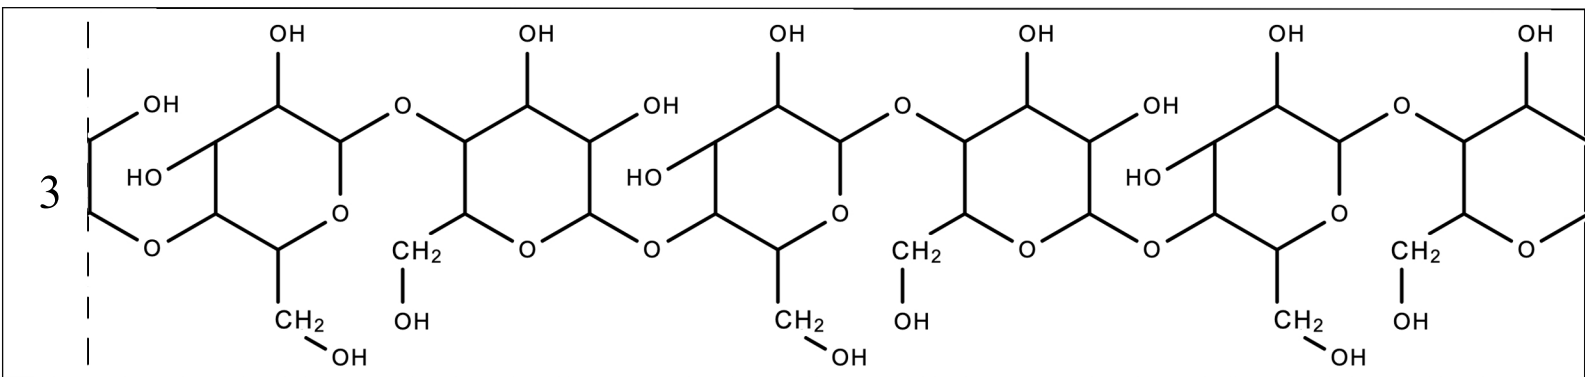

## Spandex Model, Continued

# Cotton (Cellulose) Model

Cut out the Cotton (Cellulose) model strips. Glue them together by lining up the right edge of a strip to the dotted line on the left edge of a strip.

# Water Molecules

Print on clear transparency sheets or a different color from the spandex and cellulose models.
